CHANGING OF THE GUARD is an official publication produced by the South Dakota National Guard Public Affairs Office. All content, views and opinions expressed herein are not necessarily those of, or endorsed by the U.S. Government, Department of the Army or Air Force or the State of South Dakota. Photos credited to the South Dakota National Guard, Department of Defense agencies and other contributors. Questions or comments should be directed to: South Dakota National Guard Public Affairs Office, 2823 West Main Street, Rapid City, SD 57702, 605-737-6721, pao@sd.ngb.army.mil

CHANGING OF THE GUARD

Since the Sept. 11 attacks on America, the South Dakota National Guard has mobilized more than 3,100 Soldiers and 700 Airmen in support of the Global War on Terrorism. Each of our 30 National Guard communities has experienced a unit mobilization and understands the sacrifice made by our Soldiers and Airmen, their families and their employers.

The South Dakota National Guard continues to support Operations Enduring Freedom, Iraqi Freedom and Noble Eagle overseas and within U.S. borders. At home in South Dakota with more than 4,000 Guard members serving in a non-active duty status, the National Guard continues to respond to state emergencies, support disaster relief efforts and provide for homeland defense.

This unyielding commitment to protect and defend the homeland here and abroad brings to light the great sacrifices made by the service men and women of our organization. Their service and dedication to duty has demonstrated that the National Guard is no longer just a strategic reserve for the active component, but a ready, operational force directly integrated into active component deployments and missions.

With a war being fought on two fronts and our nation facing an ever-changing geo-political landscape with diplomatic uncertainties, we must be prepared to face any and all threats to our liberty, this great nation, and the pursuit of freedom for all people.

To ensure our communities, state and nation are ready to meet the challenges that lie ahead, the National Guard has undergone a force structure transformation like never before in its history.

With major changes to its organization, the South Dakota National Guard has transformed to provide a greater response capability in support of state and federal missions. This book outlines those changes and highlights some of the National Guard's capabilities and contributions to our state and nation. It takes a look at where the Guard was in the past, and where it's going in the future. This is your South Dakota National Guard.

# NATIONAL GUARD HISTORY

## HISTORY OF THE NATIONAL GUARD

The National Guard is the oldest component of the Armed Forces of the United States and is one of the nation's longest-enduring institutions. On Dec. 13, 2008, the National Guard will celebrate its 372nd birthday, tracing its history back to the earliest English colonies in North America. Responsible for their own defense, the colonists drew on English military tradition and organized their able-bodied male citizens into militias.

The colonial militias protected fellow citizens from Indian attack and foreign invaders; but most notably, helped win the Revolutionary War. Following independence, the authors of the Constitution empowered Congress to “provide for organizing, arming, and disciplining the militia.” However, recognizing the militia’s state role, the Founding Fathers reserved the appointment of officers and training of the militia to the states.

Today’s National Guard remains a dual state-federal force. Throughout the 19th century, the size of the Regular Army was small and the militia provided the bulk of the troops during the Mexican War, the early months of the Civil War and the Spanish-American War. In 1903, important national defense legislation increased the role of the National Guard (as the militia was then called) as a reserve force for the U.S. Army. In World War I, which the U.S. entered in 1917, the National Guard made up 40 percent of the U.S. combat divisions in France. In World War II, National Guard units were among the first to deploy overseas and the first to fight.

Following World War II, National Guard aviation units, some of them dating back to World War I, became the Air National Guard, the nation’s newest reserve component. The Air National Guard, along with the U.S. Air Force, celebrated its 60th anniversary on Sept. 18, 2006.

Today’s National Guard continues its historic dual mission, providing to all 54 states and territories highly-trained and well-equipped units ready to protect life and property, while providing to the nation the same operational force that is ready to defend the United States and its interests throughout the world.

## HISTORY OF THE SOUTH DAKOTA ARMY NATIONAL GUARD

The South Dakota National Guard is proud of its 146-year heritage of serving as the state’s militia. The National Guard is the only component that holds a dual mission with both federal and state roles.

The federal mission is to maintain trained and equipped units available for prompt mobilization for war or national emergencies. At the state level, the governor reserves the ability, under the Constitution, to call up members of the Guard in times of domestic emergencies.

Since its origin in 1862, our National Guard units served in combat during the Spanish-American War, World War I and II, Operation Desert Storm and Operations Enduring and Iraqi Freedom. Our Guard was also called up during the Mexican Border Crisis, Korean War, Berlin Crisis, Operation Noble Eagle and peacekeeping missions in Bosnia and Kosovo.

Over the years, natural disasters have called forth the Guard’s spirit of teamwork and sacrifice to battle floods, fires, blizzards and tornado destruction. Our Soldiers supported the relief effort in October of 2005 in the southern United States after Hurricanes Katrina and Rita decimated the Gulf Coast region. The Southwest Border Patrol also received a helping hand from our Citizen-Soldiers during Operation Jump Start that began during the summer of 2006 and continues today. The Guard has supported the South Dakota Highway Patrol during the Sturgis Rally and emergency management agencies during search-and-rescue missions.

Today, the proud heirs of the militia tradition can be found in the 3,400 men and women of the South Dakota Army National Guard serving to provide support for the state and nation. They stand ready to leave the comforts of home and family, help their friends and neighbors, defend our nation’s interests, and bring peace and hope to people throughout the world.

BRIGADIER GENERAL  
KEITH W. CORBETT  
Army Assistant Adjutant General  
South Dakota Army National Guard

FORCE STRUCTURE TRANSFORMATION

CHANGING FOR THE FUTURE

The South Dakota Army National Guard has transformed itself for the future as the Army converted from a division structure to a smaller, lighter brigade structure.

The division was the smallest, self-contained unit able to deploy for sustainable combat operations. This force structure was replaced by the Brigade Combat Team – a more powerful, more flexible and more rapidly-deployable force. This is the new Modular Army structure for the future and the brigade is now the smallest, self-contained unit with multi-functional capability.

The South Dakota Army National Guard has adapted to this change as well. Its former role was as a strategic reserve to the active component. Today, it is an operational force directly integrated into active component deployments and missions.

In addition to its active component obligation, the South Dakota Army National Guard is now able to provide enhanced in-state mission capability and response. Units are strategically placed around the state to provide quicker response and assistance in the event of a state or national emergency; allowing for military police, public affairs capabilities, engineer assets and transportation support on both sides of the state.

The transformation has created more variety of skills in the 3,400 job opportunities for men and women in South Dakota. The change in the types of units traditional available only to male Soldiers has also allowed for more opportunities for women to serve. More than 800 additional positions in units across the state can now be held by both men and women.

To be flexible enough to complete both missions, the National Guard of today contains essential Core Joint Capabilities necessary to successfully support any state or national contingency operation. Each state has been organized in this manner. Units have now transformed in order to meet the new state National Guard structure.

By transforming to a more modular force today, the Guard stays relevant to meet the needs of the Army for future operations and to provide support for state and national emergencies and homeland defense.

CORE JOINT CAPABILITIES

- 1. Joint Force Headquarters
  - Command, Control, Communications and Computers
  - Intelligence, Surveillance and Reconnaissance
  - Reception, Staging and Onward Integration
- 2. Civil Support Teams
- 3. Maintenance
- 4. Aviation
- 5. Engineering
- 6. Medical
- 7. Communications
- 8. Transportation
- 9. Security
- 10. Logistics

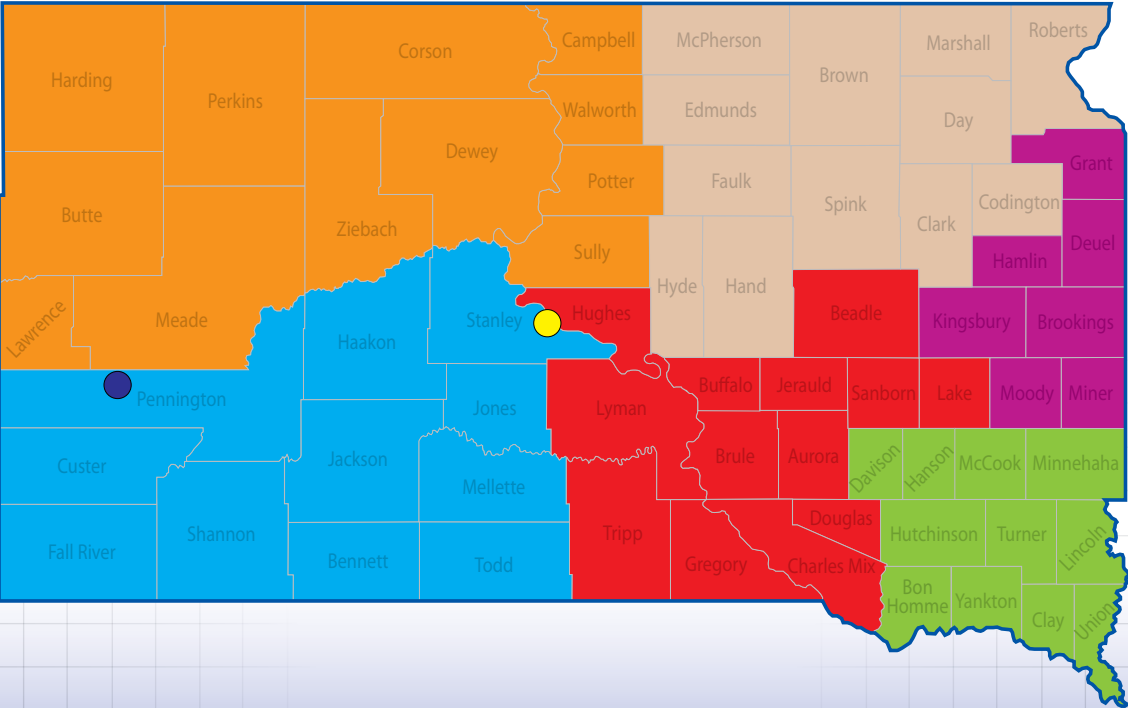

SOUTH DAKOTA GUARD TASK FORCES

The South Dakota National Guard is divided into different task forces to provide assistance to our local communities throughout the state in the event of an emergency. Separated by eight geographic locations, units are assigned to each task force providing personnel and equipment for response to severe weather, fires, natural disasters, search-and-rescue operations, civil disturbances or homeland defense.

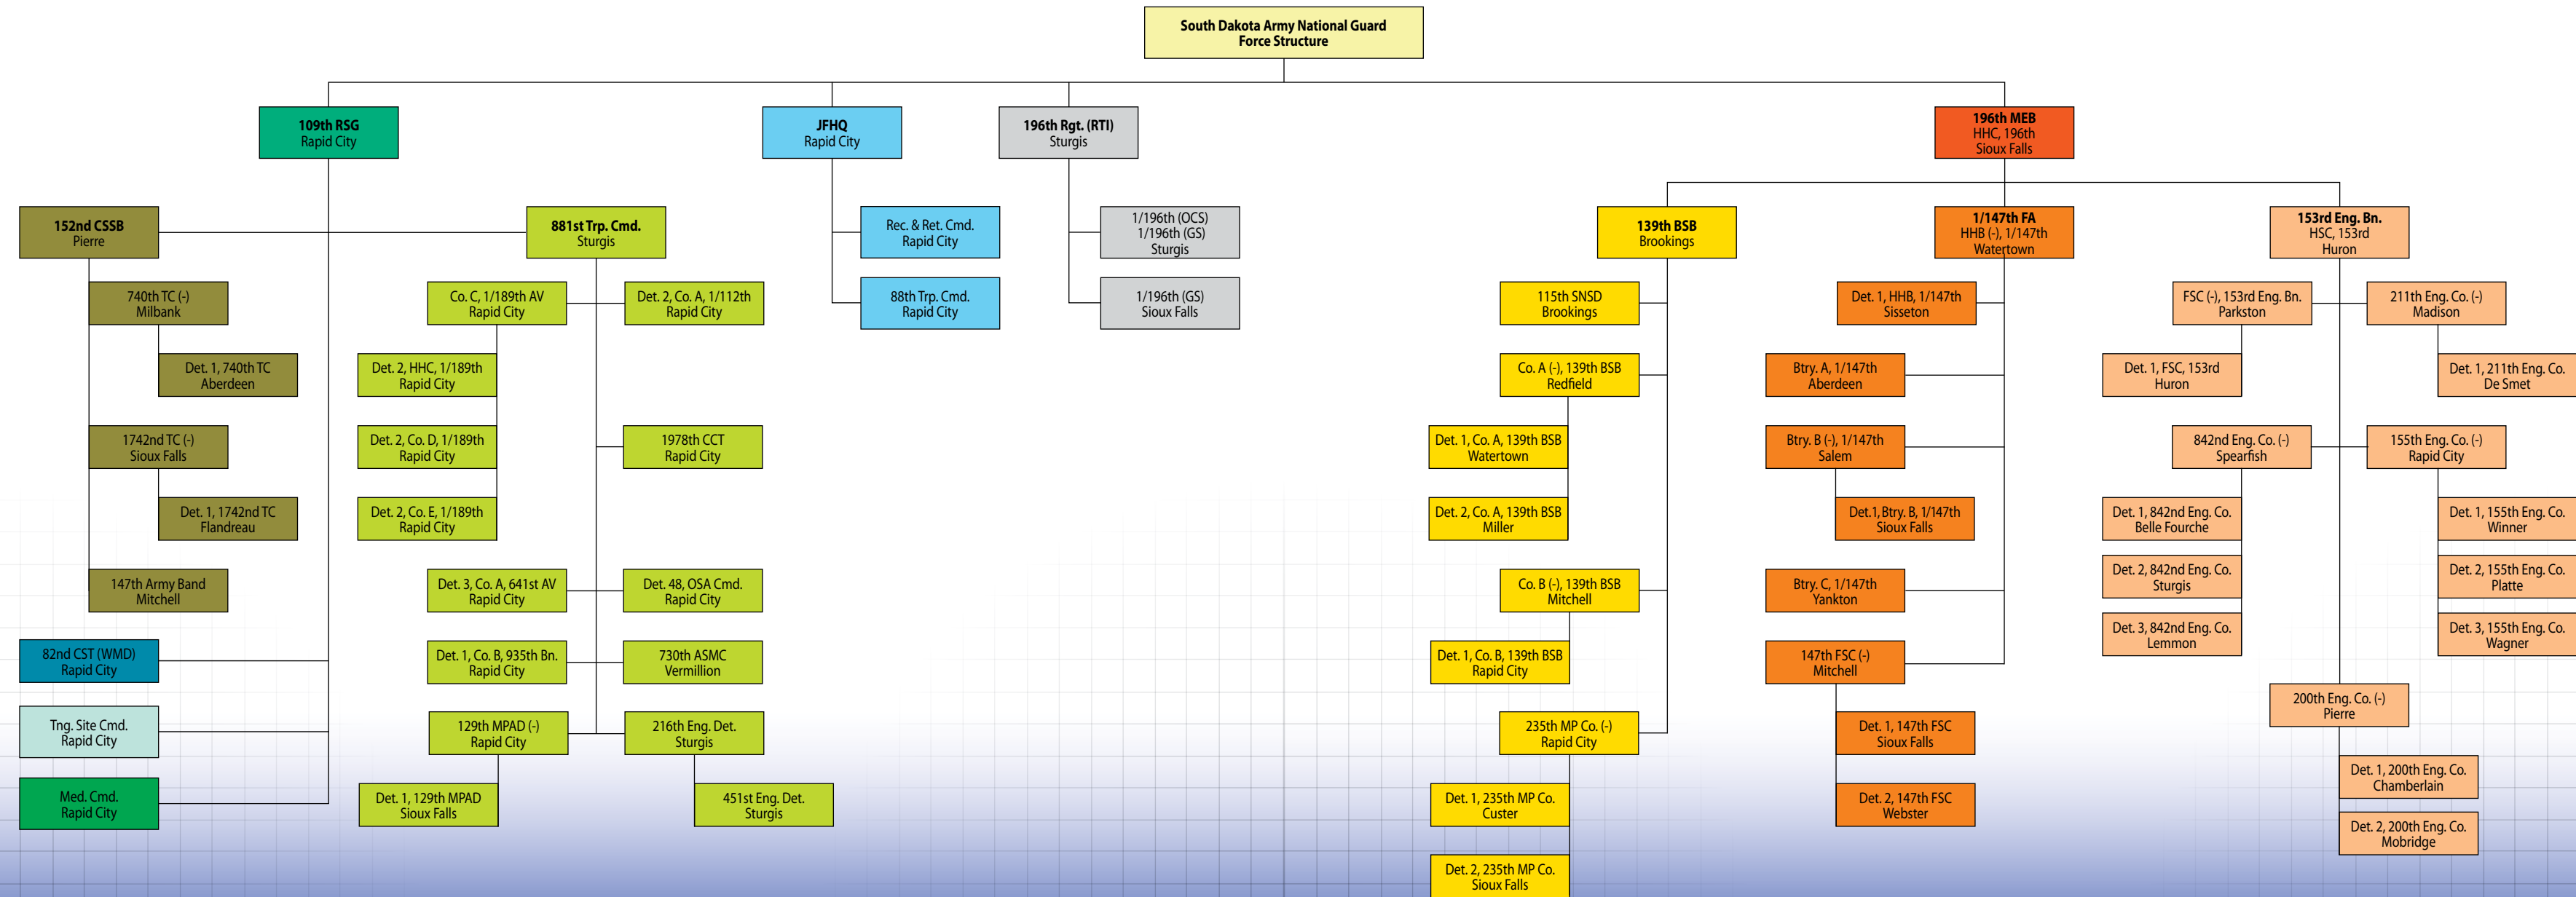

SOUTH DAKOTA NATIONAL GUARD TASK FORCES

- |                  |                          |
|------------------|--------------------------|
| Task Force Air   | Task Force 153rd         |
| Task Force 109th | Task Force 147th         |
| Task Force 881st | Task Force 139th         |
| Task Force 152nd | Task Force 196th & 114th |

SOUTH DAKOTA ARMY NATIONAL GUARD STRUCTURE

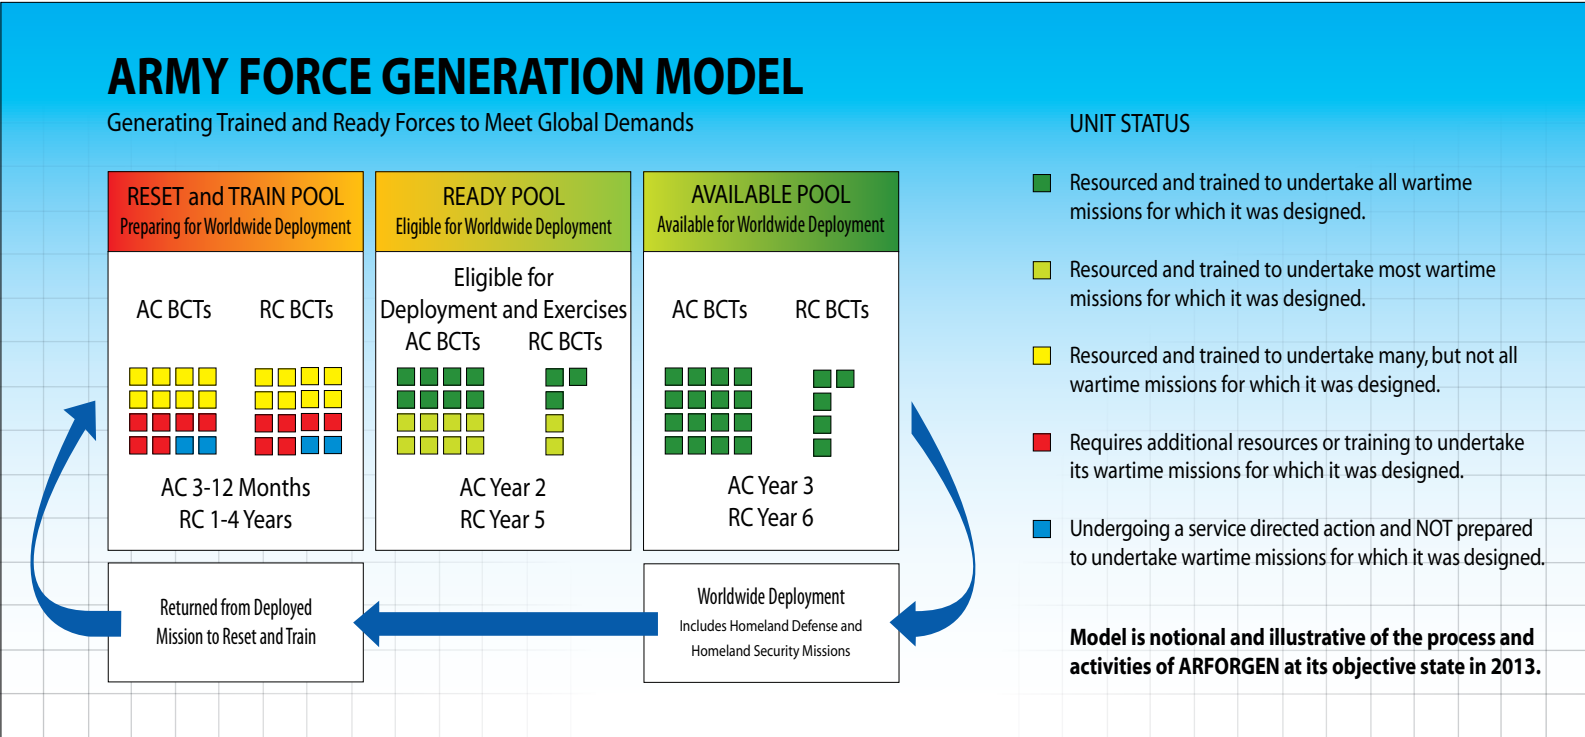

ARMY FORCE GENERATION

The Army National Guard has not only experienced changes in its force structure, but also changes to the way it prepares and deploys for combat operations. The Guard has adapted to a new training and deployment cycle known as Army Force Generation. It's a model that is conducive with the Army's new force structure and it will give units better readiness and predictability for war.

Army Force Generation or ARFORGEN, is the structured progression of increased unit readiness over time resulting in recurring periods of availability of trained, ready, and cohesive units. These units are prepared for operational deployment in support of combatant commanders' or civil authorities' requirements. Units are task organized in modular expeditionary forces, tailored for mission requirements. They are sustainable and have the capabilities and depth required to conduct the full range of operations in a persistent conflict.

Operational requirements drive the ARFORGEN training and readiness process. These same requirements support the prioritization and synchronization of resources, recruiting, organizing, manning, equipping, training, sustaining, sourcing, mobilizing, and deploying cohesive units more effectively and efficiently as shown in the figure below.

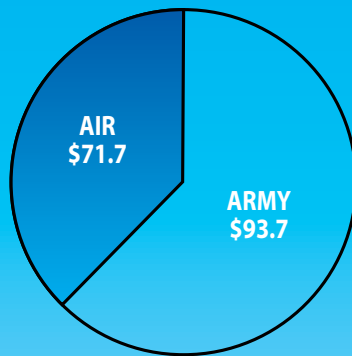

The goal is to achieve a sustained, more predictable posture to generate trained and ready modular forces. Tailored for joint mission requirements, these forces preserve the capability to defend the homeland; to provide defense support to civil authorities; to deter conflict in critical regions; to surge to conduct major combat operations when required; and are managed in a way that maintains the quality and overall health of our All-Volunteer Force.

EMPLOYER SUPPORT OF THE GUARD AND RESERVE

Employer Support of the Guard and Reserve (ESGR) programs and services help educate employers about the important role the National Guard and Reserve play in a strong national defense. Currently, about half of the nation’s total available military manpower is comprised of the reserve component.

ESGR was founded in 1972 with the mission to build and strengthen the partnerships essential to ensure that reserve component members are available and ready when needed. ESGR, along with top military leaders, develops solutions

to problems that arise because of employee participation in the National Guard and Reserve.

More than 3,400 volunteer businesses, civic, academic and military leaders serve on ESGR committees in every state, the District of Colombia, Puerto Rico, Guam, the Virgin Islands and in Europe. These volunteers work in close liaison with local companies, chambers of commerce, associations and civic groups to promote support for the National Guard and Reserve.

FAMILY SUPPORT

The success of the South Dakota National Guard relies on its military members and the families that support them.

The SDNG values the support and contributions of its families across the state. Family programs not only benefit service members and their families, but also have a positive impact on a unit’s morale and readiness.

The SDNG’s Family Readiness Program provides support by helping to bond National Guard families together and promote a sense of camaraderie, aiding families in better understanding the mission of the SDNG and by keeping families

informed about activities sponsored by the Family Readiness Program and of the common rewards of military life.

The mission of the Family Readiness Program is to promote healthy National Guard families to be self-reliant during both deployment and peacetime.

Facilitated through education, outreach services, and partnerships the program leverages resources and training to provide an enhanced quality of life for SDNG members, their families, and the communities in which they live.

ABERDEEN

Aberdeen is the home of Battery A, 1st Battalion, 147th Field Artillery (MLRS) with 75 Soldiers. It was formerly the home of Battery B, 2nd Battalion, 147th FA (MLRS) with 97 Soldiers. The 2nd Battalion, 147th FA was inactivated.

Aberdeen’s Battery A is one of three Multiple Launch Rocket System (MLRS) firing batteries that make up the realigned 1st Battalion, 147th Field Artillery. The battalion is equipped with M270-A1 launchers and has support sections for ammunition resupply, mess, maintenance, reconnaissance and fire direction.

Aberdeen is now the new home of Detachment 1, 740th Transportation Company with 71 Soldiers. The 740th maintains its headquarters in Milbank and is one of three units under the control of the 152nd Combat Sustainment Support Battalion in Pierre.

The former Brookings’ unit is equipped with M915A3 Freightliner semi-tractors and M870 trailers capable of transporting personnel, equipment and cargo.

Total: 141 5

TG = TRADITIONAL GUARDSMEN FT = FULL-TIME SOLDIERS FR = FEMALE RECRUITS

Battery A, 1st Battalion, 147th Field Artillery (MLRS)

MISSION  
To provide indirect fire support to maneuver units using medium and long-range rocket and missile artillery fires on pre-planned targets and targets of opportunity under the command and control of a field artillery fires brigade.

Detachment 1, 740th Transportation Company

MISSION  
To provide transportation for the movement of both dry and refrigerated containerized cargo, general non-containerized cargo, bulk water and bulk petroleum products by motor transport.

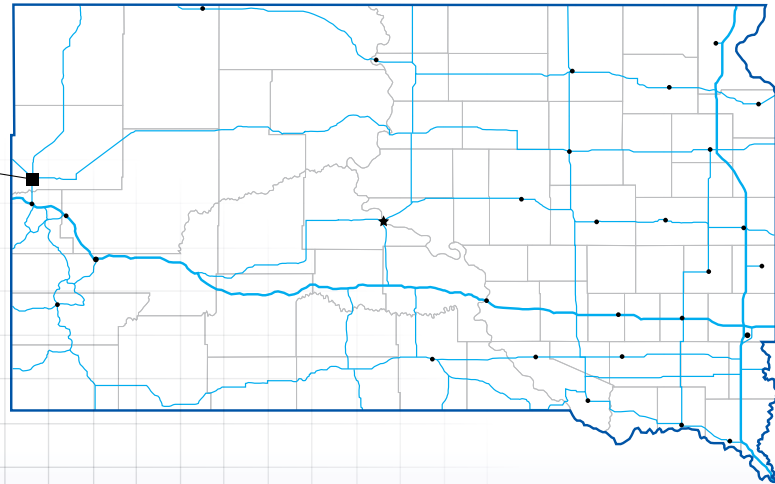

BELLE FOURCHE

Belle Fourche is the home of Detachment 1, 842nd Engineer Company (Horizontal) with 40 Soldiers. Belle Fourche has retained the detachment but has reorganized from a construction support equipment company to an engineer horizontal company.

The 842nd Eng. Co. is headquartered in Spearfish with additional detachments in Sturgis and Lemmon. The company falls under the control of the 153rd Engineer Battalion in Huron.

Equipped with bulldozers, scrapers, cranes, loaders and 20-ton dump trucks, the 842nd specializes in horizontal construction like building roads and developing airfields.

TG = TRADITIONAL GUARDSMEN FT = FULL-TIME SOLDIERS FR = FEMALE RECRUITS

Detachment 1, 842nd Engineer Company (Horizontal)

MISSION

To provide engineer support such as repairing, maintaining, and constructing air and ground lines of communication; emplacing culverts, hauling, constructing and providing force protection; constructing and repairing roads; developing airfields and limited clearing operations.

BROOKINGS

Brookings is now the home of two new units, the 139th Brigade Support Battalion with 84 Soldiers and the 115th Signal Network Support Detachment with 54 Soldiers.

The 139th BSB provides command and control oversight for all assigned and attached units. The battalion is assigned to the 196th Maneuver Enhancement Brigade in Sioux Falls. The 115th is under the command of the 139th BSB and provides intelligence, telecommunication and computer networking support for a battalion or a brigade.

The town of Brookings formerly hosted three units: Headquarters, 88th Troop Command, Detachment 1, 740th Transportation Company and the 727th Transportation Company totaling 162 Soldiers.

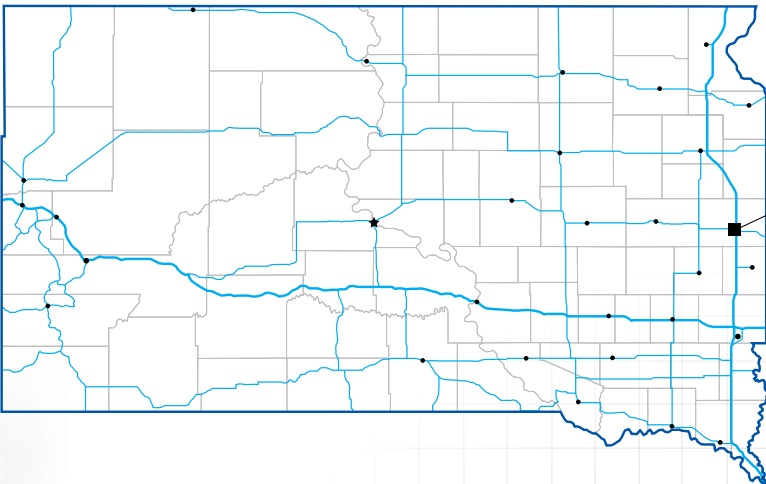

The 88th Troop Command inactivated and moved its positions to Joint Force Headquarters in Rapid City. Det. 1, 740th Trans. Co. relocated to Aberdeen and Det. 1, 727th Trans. Co. was inactivated and reflagged as Company A (-) (Distribution), 139th Brigade Support Battalion and moved to Redfield.

BROOKINGS CONTINUED...

139th Brigade Support Battalion

MISSION  
To provide command and control, administrative, logistical and training support for assigned or attached units to ensure units are ready to support state or national emergencies and homeland defense. The 139th also serves as an organic logistical sustainment unit for a brigade.

- ASSIGNED UNITS
- Company A (-) (Distribution), 139th Brigade Support Battalion
    - Detachment 1, Company A (Distribution), 139th BSB
    - Detachment 2, Company A (Distribution), 139th BSB

  - 235th Military Police Company (-)
    - Detachment 1, 235th Military Police Company
    - Detachment 2, 235th Military Police Company

115th Signal Network Support Detachment

MISSION  
To deploy, install, operate, and maintain a brigade's command and control, communication, computer, intelligence, surveillance and reconnaissance networks. The unit establishes networks that support brigade operations and integrate with joint task force, division, or theater networks.

CHAMBERLAIN

Chamberlain continues to be the home of Detachment 1, 200th Engineer Company (Multi-Role Bridge Company) and decreased its Soldier strength from 49 to 48.

The 200th Eng. Co. is headquartered in Pierre with an additional detachment in Mobridge. The company falls under the control of the 153rd Eng. Bn. in Huron.

Chamberlain's Det. 1 is part of the modern multi-role bridge company uniquely equipped with the improved ribbon bridge (IRB) and the heavy dry span bridge (HDSB). The equipment of the multi-role unit can be used to bridge wet or dry spans and can provide both temporary and permanent bridge solutions.

Detachment 1, 200th Engineer Company (MRBC)

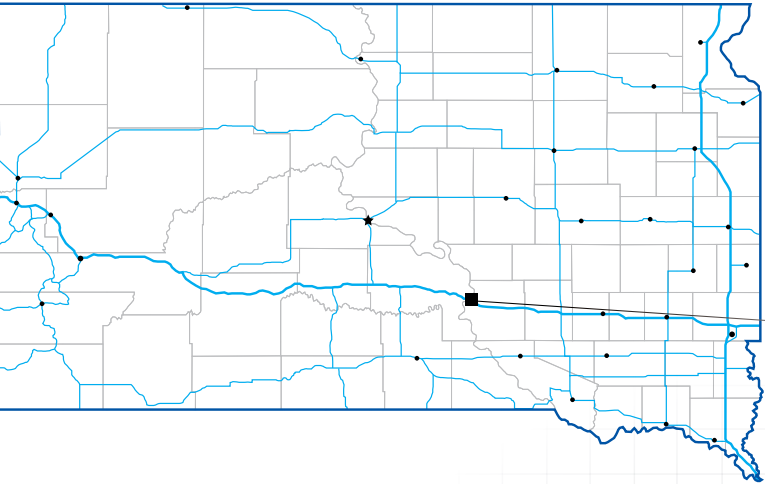

MISSION  
To provide personnel and equipment to transport, assemble, disassemble, retrieve, and maintain all standard U.S. Army bridging systems, including improved ribbon bridges and rafts. This unit has a secondary mission to provide transportation of cargo that is configured for the palletized loading system (PLS).

### 147th Forward Support Company (-) (MLRS)

MISSION  
Provides logistics support to a MLRS battalion within a fires brigade.

- ASSIGNED UNITS
- Detachment 1, 147th Forward Support Company (MLRS)
  - Detachment 2, 147th Forward Support Company (MLRS)

### Company B (-) (Support Maintenance), 139th Brigade Support Battalion

MISSION  
To provide general support maintenance commensurate with stated capabilities for conventional equipment, end-items and compartments for return to the Army supply system.

### 147th Army Band

MISSION  
To provide music throughout the full spectrum of military operations and instill in our service members the will to fight and win, foster the support of our citizens, and promote our national interests at home and abroad.

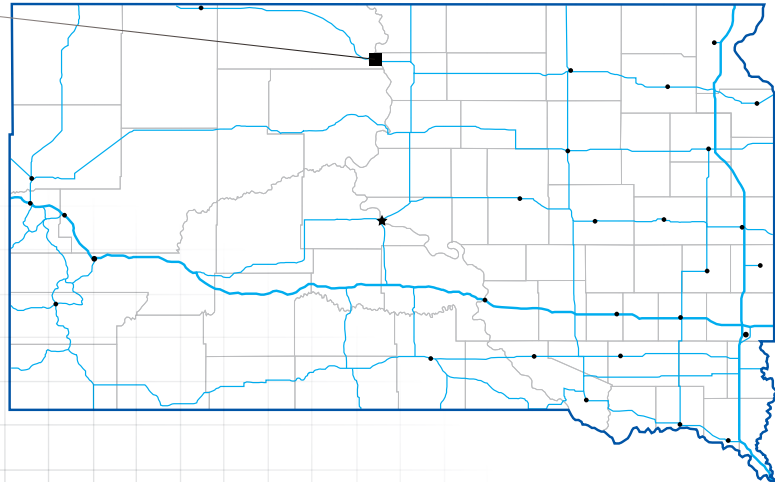

MOBRIDGE

Mobridge continues to be the home of Detachment 2, 200th Engineer Company (Multi-Role Bridge Company) with 56 Soldiers.

The 200th Eng. Co. is headquartered in Pierre with an additional detachment in Chamberlain. The company falls under the control of the 153rd Engineer Battalion in Huron.

Mobridge’s Det. 2 is part of the modern multi-role bridge company uniquely equipped with the improved ribbon bridge (IRB) and the heavy dry span bridge (HDSB). The equipment of the multi-role unit can be used to bridge wet or dry spans and can provide both temporary and permanent bridge solutions.

RAPID CITY CONTINUED...

3, Company A, 249th Aviation inactivated and realigned to be Detachment 3, Company A, 641st Aviation Regiment and continues to have nine Soldiers. Detachment 48, Operational Support Airlift Command will not change with eight Soldiers, and Detachment 3, Company F, 238th Aviation Intermediate Maintenance Company inactivated and realigned as Detachment 1, Company B, 935th Support Battalion with 28 Soldiers.

New units to activate along with the inactivation of the 1085th Medical Company (Air Ambulance) were the following:

- Detachment 2, HHC, 1st Battalion, 189th Aviation Regiment
- Detachment 2, Company D, 1st Battalion, 189th Aviation Regiment
- Detachment 2, Company E, 1st Battalion, 189th Aviation Regiment

Rapid City is the home of most Guard operations based at Camp Rapid, an 84-acre training site first developed in 1924. Today, the camp can provide housing for 1,200 Soldiers. Transient housing is also available with 54-single person rooms in four modern buildings. Field operations are conducted on the 663 acres of West Camp Rapid located just west of Stevens High School. It has three firing ranges and the following training sites:

- Leadership Reaction Course
- Land Navigation Course
- Driver Training Site
- Bridge Building Site
- Rail Load Training Site
- Military Operation in Urban Terrain Training Site

Joint Force Headquarters makes up the headquarters of the SDNG and is the vital link in providing the manning and resources to the units of the state’s National Guard.

Joint Force Headquarters

MISSION  
To provide command and control of all National Guard units assigned to the state. To provide trained, equipped and ready forces capable of mobilizing and deploying in support of federal and state missions, and conduct missions authorized by the governor and or the National Command Authority.

109th Regional Support Group

MISSION  
Command and control structure for non-major combat operations, and assist’s active and reserve component units in meeting training, readiness and deployment requirements.

- ASSIGNED UNITS
- Headquarters and Headquarters Detachment, 109th Regional Support Group
  - 881st Troop Command
  - 152nd Combat Sustainment Support Battalion
  - Medical Command
  - Training Site Command
  - 82nd Civil Support Team (Weapons of Mass Destruction)

Medical Command

MISSION  
To plan, program, provide and sustain health force protection and medical/dental support to meet operation, training and mobilization medical readiness requirements of assigned units and Soldiers.

Training Site Command

MISSION  
To command and operate the installation, manage and administer the use of resources; provide administrative, training and logistical support to units and activities; and prepare to expand and operate as a separate installation upon mobilization.

88th Troop Command

MISSION  
To provide command and control, administrative, logistical and training support for assigned or attached units to ensure units are ready to support state and national emergencies and homeland defense.

Recruiting and Retention Command

MISSION  
To recruit and retain quality, professional Soldiers for the South Dakota Army National Guard.

82nd Civil Support Team (Weapons of Mass Destruction)

MISSION  
To support civil authorities at a domestic chemical, biological, radiological, nuclear or high-explosive (CBRNE) incident site by identifying CBRNE agents/substances, assessing current and projected consequences, advising on response measures, and assisting with appropriate requests for state and federal support.

235th Military Police Company (-)

MISSION  
To provide security for prisoners of war and civilian internees or provide security for U.S. military prisoners, installations and facilities.

155th Engineer Company (-) (Vertical)

MISSION  
To provide specific engineering support in the construction of base camps and internment facilities as well as construct, repair, and maintain other vertical infrastructures in support of units within a brigade combat team, a division or corps.

129th Mobile Public Affairs Detachment (-)

MISSION  
To provide public affairs support to units deployed in support of combined, unified or joint operations.

RAPID CITY

CONTINUED...

Detachment 1, Company B (Support Maintenance),  
139th Brigade Support Battalion

MISSION  
To provide general support maintenance commensurate with stated capabilities for conventional equipment, end-items and compartments for return to the Army supply system.

Detachment 2, Company A, 1st Battalion,  
112th Aviation Regiment (Security & Support)

MISSION  
To perform command, control and communication flights and limited air movement flights in support of a maneuver unit or other local, state and national emergency management agencies.

Detachment 2, Headquarters and Headquarters Company,  
1st Battalion, 189th Aviation Regiment

MISSION  
To provide command and control, supervision, staff planning, unit level personnel service and logistical support for all units organic or attached to a general support aviation battalion.

Company C, 1st Battalion, 189th Aviation Regiment  
(General Support Aviation Battalion)

MISSION  
To provide aero-medical evacuation support to units within an assigned area of operation.

Detachment 2, Company D, 1st Battalion,  
189th Aviation Regiment

MISSION  
To perform aviation unit maintenance for a general support aviation battalion.

Detachment 1, Company B, 935th Support Battalion

MISSION  
To provide aviation intermediate maintenance support and backup aviation unit maintenance support, including aircraft armament and avionics equipment Repair, for all aircraft within a brigade.

Detachment 3, Company A, 641st Aviation Regiment

MISSION  
To provide command and control and communications; staff transport and liaison; casualty transport; and air movement of critical equipment, supplies parts, and personnel.

Detachment 2, Company E, 1st Battalion,  
189th Aviation Regiment

MISSION  
To provide logistical support to a general support aviation battalion.

Detachment 48, Operational Support Airlift Command

To provide fixed-wing operational airlift in support of the National Guard, military departments and federal agencies as scheduled by the Operational Support Airlift Command. Provide a trained fixed wing organization to support peacetime, state emergencies, national emergencies, natural disasters, contingencies or wartime missions.

1978th Contingency Contract Team

MISSION  
To plans and coordinates all contracting functions at the brigade combat team level.

139th Brigade Support Battalion

MISSION  
To provide transportation for the movement of both dry and refrigerated containerized cargo, general non-containerized cargo, bulk water and bulk petroleum products by motor transport.

SALEM

Salem remains the home of Battery B (-), 1st Battalion, 147th Field Artillery (MLRS) with 43 Soldiers and has a detachment located in Sioux Falls.

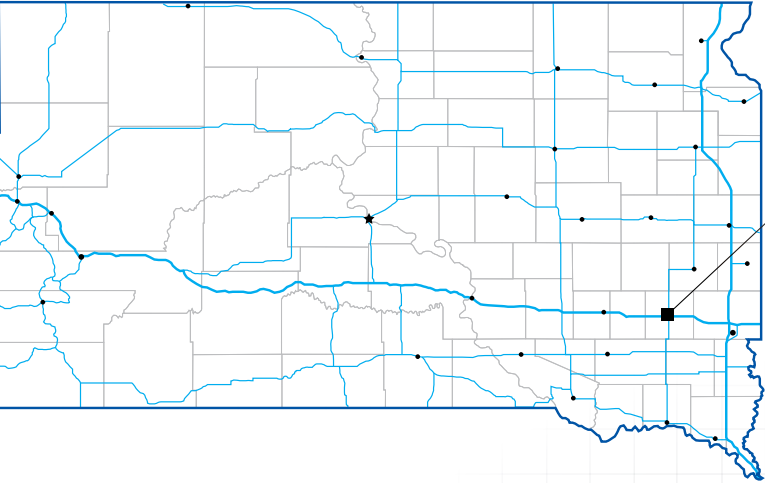

Salem's Battery B is one of three Multiple Launch Rocket Systems (MLRS) firing batteries that make up the realigned 1st Battalion, 147th Field Artillery. Along with its headquarters unit in Sioux Falls, the unit has a total of six M270-A1 launchers and support sections for ammunition re-supply, maintenance, medical, reconnaissance and fire direction.

Battery B (-), 1st Battalion, 147th Field Artillery (MLRS)

MISSION  
To provide indirect fire support to maneuver units using medium and long-range rocket and missile artillery fires on pre-planned targets and targets of opportunity under the command and control of a field artillery fires brigade.

## 196th Maneuver Enhancement Brigade

**MISSION**  
The maneuver enhancement brigade enables, enhances, and protects the operational and tactical freedom of action of a supported maneuver force. It receives and integrates mission tailored forces to brigade combat teams and support brigades. It commands and controls forces necessary to conduct security and functional operations in a designated area of operations in order to enable force application, focused logistics, battle space awareness and protection.

- ASSIGNED UNITS**
- Headquarters and Headquarters Company, 196th MEB
  - 139th Brigade Support Battalion
  - 153rd Engineer Battalion
  - 1st Battalion, 147th Field Artillery

## Detachment 1, Battery B, 1st Battalion, 147th Field Artillery (MLRS)

**MISSION**  
To provide indirect fire support to maneuver units using medium and long-range rocket and missile artillery fires on pre-planned targets and targets of opportunity under the command and control of a field artillery fires brigade.

## Detachment 1, 129th Mobile Public Affairs Detachment

**MISSION**  
To provide public affairs support to units deployed in support of combined, unified or joint operations.

## Detachment 2, 235th Military Police Company

**MISSION**  
To provide security for prisoners of war and civilian internees or provide security for U.S. military prisoners, installations and facilities.

## Detachment 1, 147 Forward Support Company (MLRS)

**MISSION**  
Provides logistics support to a MLRS battalion within a fires brigade.

## Detachment 1, 2nd Battalion, 196th Regiment (RTI)

**MISSION**  
To provide a variety of noncommissioned officer development courses, the Combat Lifesaver Course, Modern Army Combatives and other leadership or individual skill development courses as assigned or needed to support commanders in their mission to provide professional and well-trained military forces.

## 1742nd Transportation Company (-)

**MISSION**  
To provide transportation for the movement of both dry and refrigerated containerized cargo, general non-containerized cargo, and bulk water, and bulk petroleum products by motor transport.

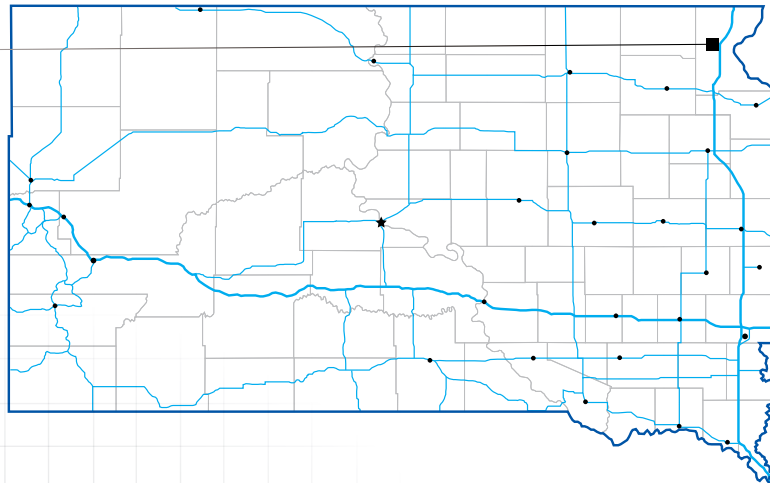

# SISSETON

Sisseton is the home of Detachment 1, Headquarters and Headquarters Battery, 1st Battalion, 147th Field Artillery (MLRS) with 33 Soldiers. Sisseton was the home of Battery A, 2nd Battalion, 147th Field Artillery, which was inactivated.

Headquarters and Headquarters Battery, 1st Battalion, 147th Field Artillery (MLRS) is headquartered in Watertown and commands three firing batteries that make up the field artillery battalion that is equipped with M270-A1 Multiple Launch Rocket Systems.

Detachment 1, Headquarters and Headquarters Battery,  
1st Battalion, 147th Field Artillery (MLRS)

## MISSION

To provide command and control, administrative, logistical and training support for assigned or attached units to ensure units are ready to support state and national emergencies and homeland defense.

## SPEARFISH

Spearfish remains the home of the 842nd Engineer Company (-) (Horizontal) with 60 Soldiers. The 842nd Eng. Co. has reorganized from a construction support equipment company to an engineer horizontal construction company.

Spearfish is the home of the headquarters element for the units three detachments located in Belle Fourche, Lemmon and Sturgis. The company falls under the control of the 153rd Engineer Battalion in Huron.

Equipped with bulldozers, scrapers, cranes, loaders and 20-ton dump trucks, the 842nd specializes in horizontal construction like building roads and developing airfields.

## 842nd Engineer Company (-) (Horizontal)

## MISSION

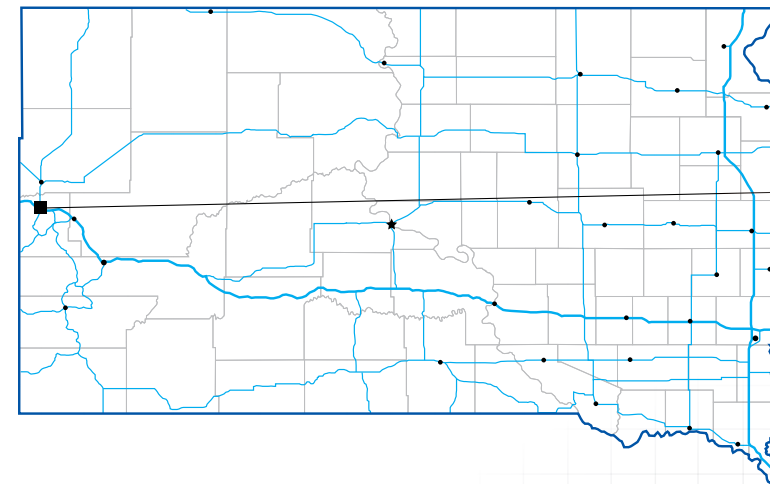

To provide engineer support such as repairing, maintaining, and constructing air and ground lines of communication; emplacing culverts, hauling, constructing and providing force protection; constructing and repairing roads; developing airfields and limited clearing operations.

STURGIS

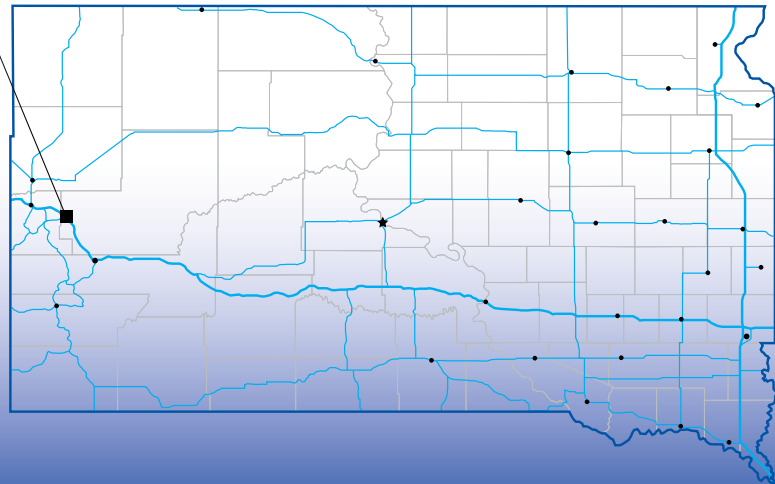

After the transformation, Sturgis is the new home of the 881st Troop Command that relocated from Pierre with 24 Soldiers and provides command and control structure for assigned or attached units. The unit falls under the command of the 109th Regional Support Group in Rapid City.

Sturgis was the home of the 109th Engineer Battalion, which was inactivated.

Detachment 2, 842nd Engineer Company (Horizontal) remains in Sturgis with 28 Soldiers and supports heavy construction activities with welding, refueling and mobile repair capabilities.

The 216th Engineer Detachment (Fire Fighting Team - Headquarters) remains in Sturgis with four Soldiers and welcomes the arrival of the new 451st Engineer Detachment (Fire Fighting Team - Fire Truck) with seven Soldiers. Both units fall under the command of the 881st Troop Command.

Sturgis remains the home of the 196th Regiment (Regional Training Institute) with 33 Soldiers and historic Fort Meade. The RTI provides a model environment for training future leaders of the National Guard and serves as the Military Academy for South Dakota. The 196th hosts the Combat Lifesaver Course, Total Army

Instructor/Trainer Course, Commanders Course, Basic and Advanced NCO Courses and Officer Candidate School (OCS).

OCS is a challenging program for enlisted Soldiers who want to become officers. The 196th hosts the OCS Phase I, II and III program for the entire Region G, which includes 14 western states. The 196th is now one of two National Guard operated programs that host an OCS fast track program where a Soldier can complete all three phases of training in one location.

881st Troop Command

MISSION  
To provide command and control, administrative, logistical and training support for assigned or attached units to ensure units are ready to support state and national emergencies and homeland defense.

- ASSIGNED UNITS
- Headquarters and Headquarters Detachment, 881st Troop Command
  - 129th Mobile Public Affairs Detachment (-)
  - 216th Engineer Detachment (Fire Fighting Team - Headquarters)
  - 451st Engineer Detachment (Fire Fighting Team - Fire Truck)
  - 730th Area Support Medical Company
  - Detachment 3, Company A, 641st Aviation Regiment
  - Detachment 48, Operational Support Airlift Command

  - Detachment 2, Company E, 1st Battalion, 189th Aviation Regiment
  - 1978th Contingency Contract Team

Headquarters, 196th Regiment (Regional Training Institute)

MISSION  
To provide comprehensive battle focused training and support to ensure Soldiers possess Warrior Ethos, knowledge and skills needed in the current operating environment. To provide command and control of the two battalions within the 196th RTI; providing guidance, ensuring compliance and providing assistance to assigned units.

1st Battalion, 196th Regiment (Regional Training Institute) (Officer Candidate School)

MISSION  
To host a consolidated Officer Candidate School (OCS) (Phase I, II, III), and coordinate and ensure accreditation standards are met for 14 states and territories that make up the entire South Dakota OCS battalion.

2nd Battalion, 196th Regiment (Regional Training Institute) (General Studies)

MISSION  
To provide command and control for Modular Training Companies (MOSQ), conduct Combat Life Savers courses, Modern Army Combatives courses, coordinate/prepare SD Embedded Training Team, coordinate Canadian Instructor Exchange Program and coordinate Suriname Ambassador Exchange Program.

STURGIS CONTINUED...

216th Engineer Detachment (Fire Fighting Team - Headquarters)

MISSION  
To provide fire fighting support to units within an assigned area of operations.

Detachment 2, 842nd Engineer Company (Horizontal)

MISSION  
To provide engineer support such as repairing, maintaining, and constructing air and ground lines of communication; emplacing culverts, hauling, constructing and providing force protection; constructing and repairing roads; developing airfields and limited clearing operations.

451st Engineer Detachment (Fire Fighting Team - Fire Truck)

MISSION  
To provide fire fighting support to units within an assigned area of operations.

VERMILLION

Vermillion is the new home to the 730th Area Support Medical Company with 82 Soldiers. The 730th was activated as Company B, 109th Area Support Medical Battalion was inactivated and reorganized into the new area support medical company.

Vermillion's 730th ASMC plays an integral part in the Army's medical mission and provides valuable medical services for all National Guard units across the state. The unit consists of doctors, nurses, physician assistants, combat medics, radiological technicians and a variety of medical support personnel. The 730th is assigned to the 881st Troop Command in Sturgis.

730th Area Support Medical Company

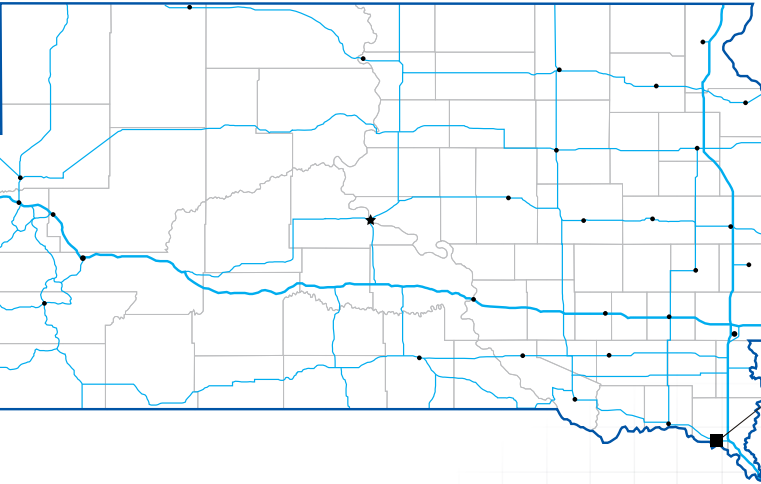

MISSION  
To provide routine and emergency healthcare services to units within an assigned area of operation.

**SIOUX FALLS** CONTINUED...

**114th Maintenance Group**

**MISSION**  
The mission of the 114th Maintenance Group is to ensure that assigned aircraft and equipment are safe, serviceable, and properly configured to meet mission requirements. Maintenance actions include, but are not limited to, inspection, repair, overhaul, modification, preservation, refurbishment, testing and analyzing condition and performance.

- ASSIGNED UNITS**
- 114th Aircraft Maintenance Squadron
  - 114th Maintenance Squadron
  - 114th Maintenance Operations Flight

The 114th Aircraft Maintenance Squadron services, inspects, maintains, launches, recovers assigned and transient aircraft and ensures all mobility requirements are met. The 114th Aircraft Maintenance Squadron includes activities that generate sorties and train personnel to generate sorties, and is predominantly accomplished in an on-equipment environment.

The mission of the 114th Maintenance Squadron provides support to the 114th Aircraft Maintenance Squadron sortie production and the depth to sustain maintenance effectiveness. The 114th Maintenance Squadron is divided into two flights, the Component Maintenance Flight and the Equipment Maintenance Flight. The flights perform both on and off equipment maintenance on assigned aircraft.

The 114th Maintenance Operations Flight is responsible to the 114th Maintenance Group commander for aircraft maintenance staff functions required for the efficient operation of the 114th Maintenance Group. The flight includes the maintenance operations center; plans, scheduling, and documentation; engine management and training management; maintenance analysis and maintenance plans and programs.

**114th Medical Group**

**MISSION**  
The mission of the 114th Medical Group is, upon mobilization, to provide manpower replacement tasking by the gaining major command, Air Combat Command. The 114th Medical Group provides limited health services for more than 1,000 personnel assigned to the 114th Fighter Wing.

**SIOUX FALLS** 
CONTINUED...

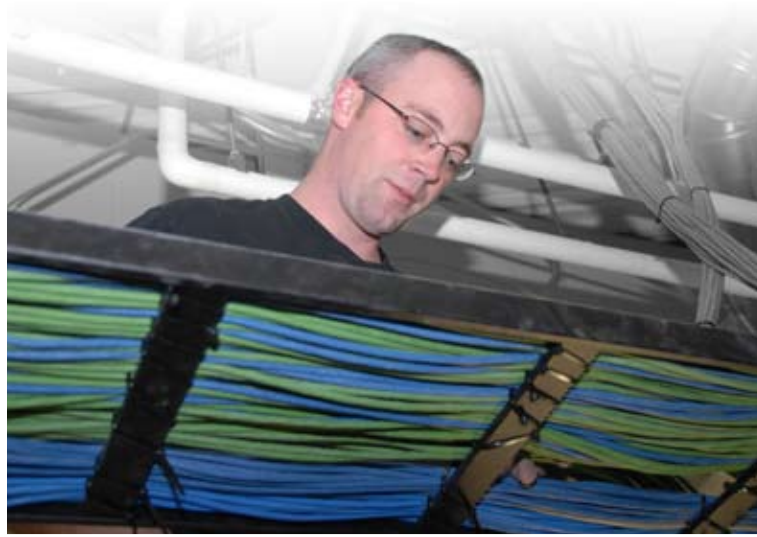

114th Mission Support Group

MISSION

The mission of the 114th Mission Support Group is to direct the activities of the 114th Communications Flight, 114th Civil Engineer Squadron, 114th Logistics Readiness Squadron, 114th Mission Support Flight, 114th Security Forces Squadron, and the 114th Services Flight toward the overall missions and objectives of the 114th Fighter Wing.

ASSIGNED UNITS

- 114th Communications Flight
- 114th Civil Engineer Squadron
- 114th Logistics Readiness Squadron
- 114th Mission Support Flight
- 114th Security Forces Squadron
- 114th Services Flight

The mission of the 114th Communications Flight is to provide trained communications and computer operators, audio-visual, and maintenance personnel to perform communications and computer staff, audio-visual, communications and computer operations and maintenance functions for Air Combat Command flying unit. The flight will organize, equip, and train to provide services for which they are tasked by Air Combat Command.

The mission of the 114th Civil Engineer Squadron is to provide personnel capable of deploying anywhere in the world, including bare bases and support aircraft operations with bed-down, rapid runway repair, operations, and maintenance support, and crash and fire suppression activities.

The mission of the 114th Logistics Readiness Squadron is to provide and direct the supply, fuels, procurement, motor vehicle and commercial transportation activities toward the overall objectives and missions of the assigned units of the group.

The mission of the 114th Mission Support Flight provides quality support to commanders, Air National Guard members, Air National Guard dependents and military retirees. Support is provided in the areas of military personnel policy interpretation, customers service, training, education, personnel utilization and progression, Military Personnel Data System, recruiting, retention, readiness and personnel information management.

The mission of the 114th Security Forces Squadron is to augment the host base weapon system security functions to enable them to support additional workloads generated by the assignment of additional tactical aircraft.

The mission of the 114th Services Flight is to provide billeting, food service, laundry and mortuary services during a wartime scenario. A secondary mission is to provide lodging and food services for unit members during unit training assemblies.

EMPLOYER SUPPORT OF THE GUARD AND RESERVE

Employer Support of the Guard and Reserve (ESGR) programs and services help educate employers about the important role the National Guard and Reserve play in a strong national defense. Currently, about half of the nation's total available military manpower is comprised of the Reserve component.

ESGR was founded in 1972 with the mission to build and strengthen the partnerships essential to ensure that Reserve component members are available and ready when needed. ESGR, along with top military leaders, develops solutions

to problems that arise because of employee participation in the National Guard and Reserve.

More than 3,400 volunteer businesses, civic, academic and military leaders serve on ESGR committees in every state, the District of Colombia, Puerto Rico, Guam, the Virgin Islands and in Europe. These volunteers liaison with local companies, chambers of commerce, associations and civic groups to promote support for the National Guard and Reserve.

FAMILY SUPPORT

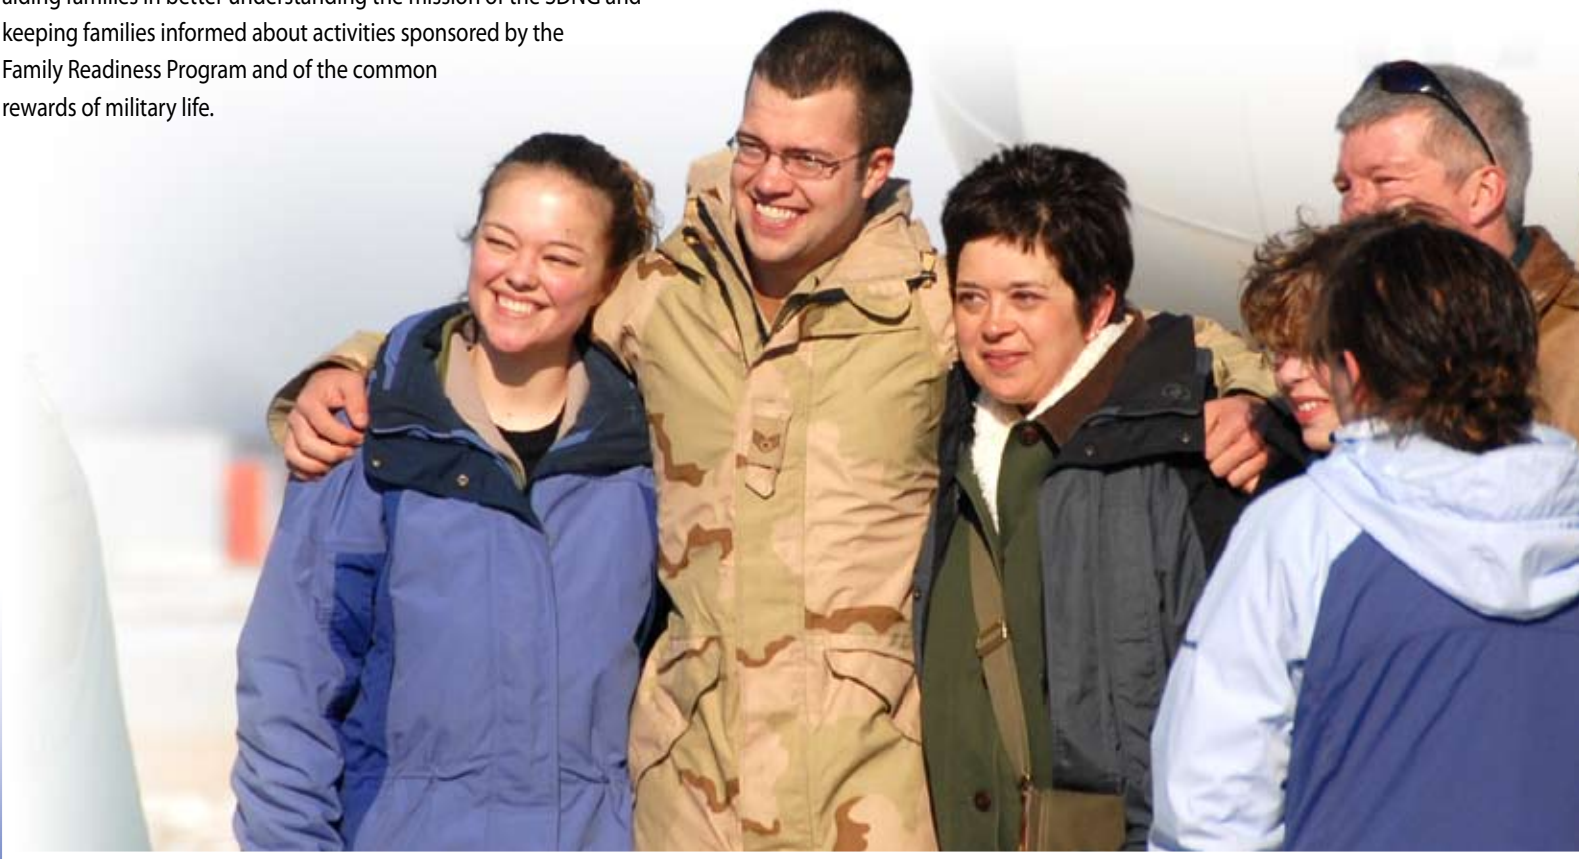

The success of the South Dakota National Guard relies on its military members and the families that support them.

The SDNG values the support and contributions of our families across the state. Family programs not only benefit service members and their families, but also have a positive impact on a unit's morale and readiness.

The SDNG's Family Readiness Program provides support by helping to bond National Guard families together and promote a sense of camaraderie, aiding families in better understanding the mission of the SDNG and keeping families informed about activities sponsored by the Family Readiness Program and of the common rewards of military life.

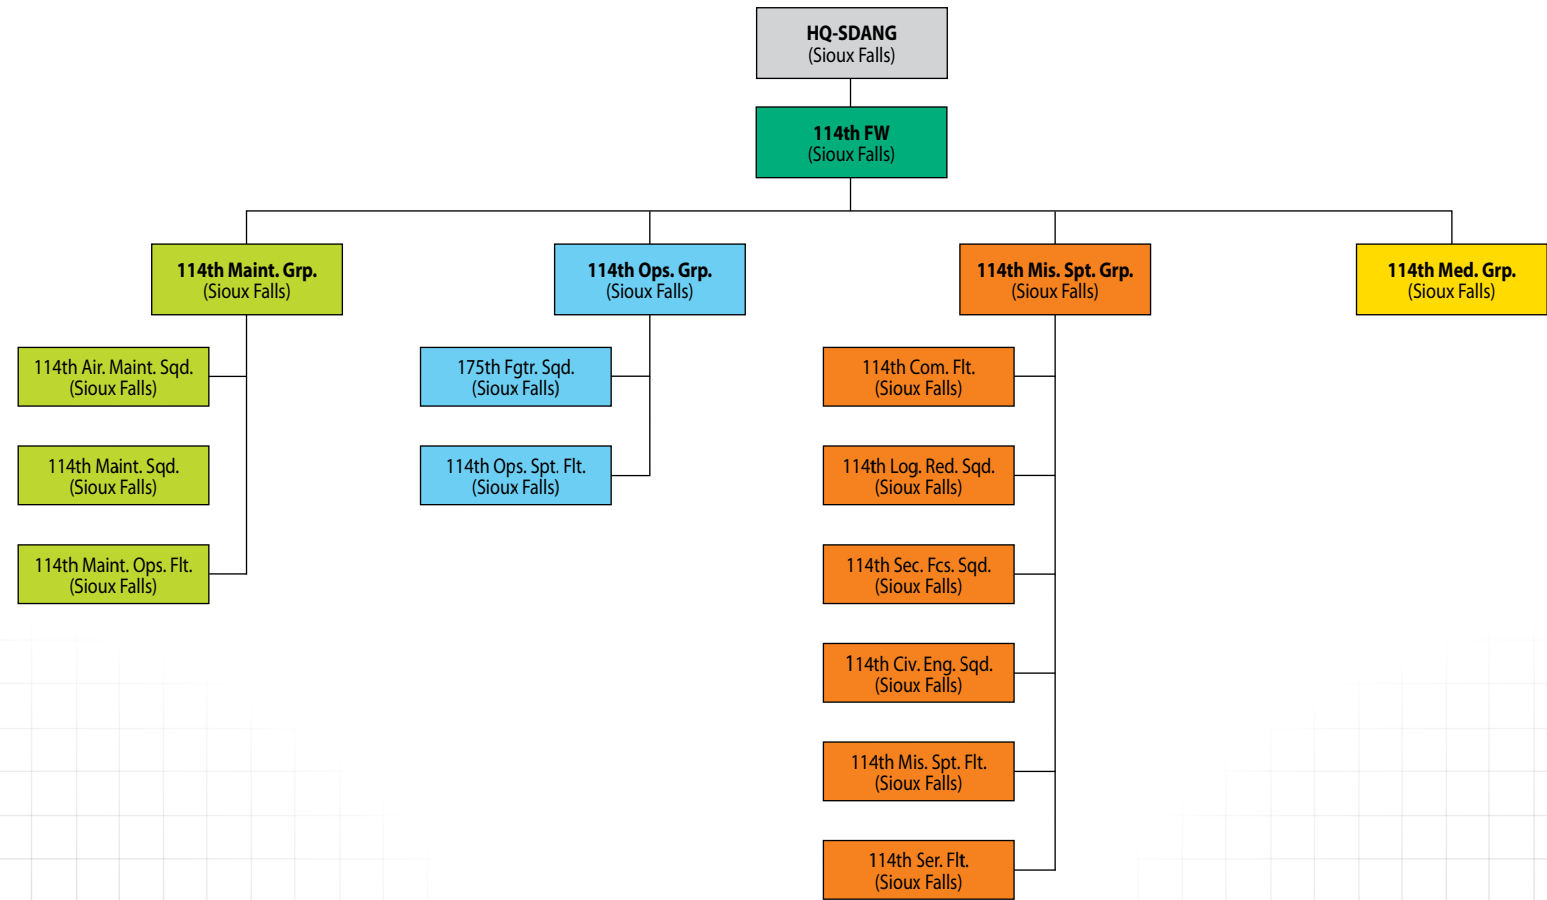

The mission of the Family Readiness Program is to promote healthy National Guard families to be self-reliant during both deployment and peacetime.

Facilitated through education, outreach services, and partnerships the program leverages resources, training, and capitalizes on new capabilities, concepts, and technological advances to provide an enhanced quality of life for SDNG members, their families, and the communities in which they live.

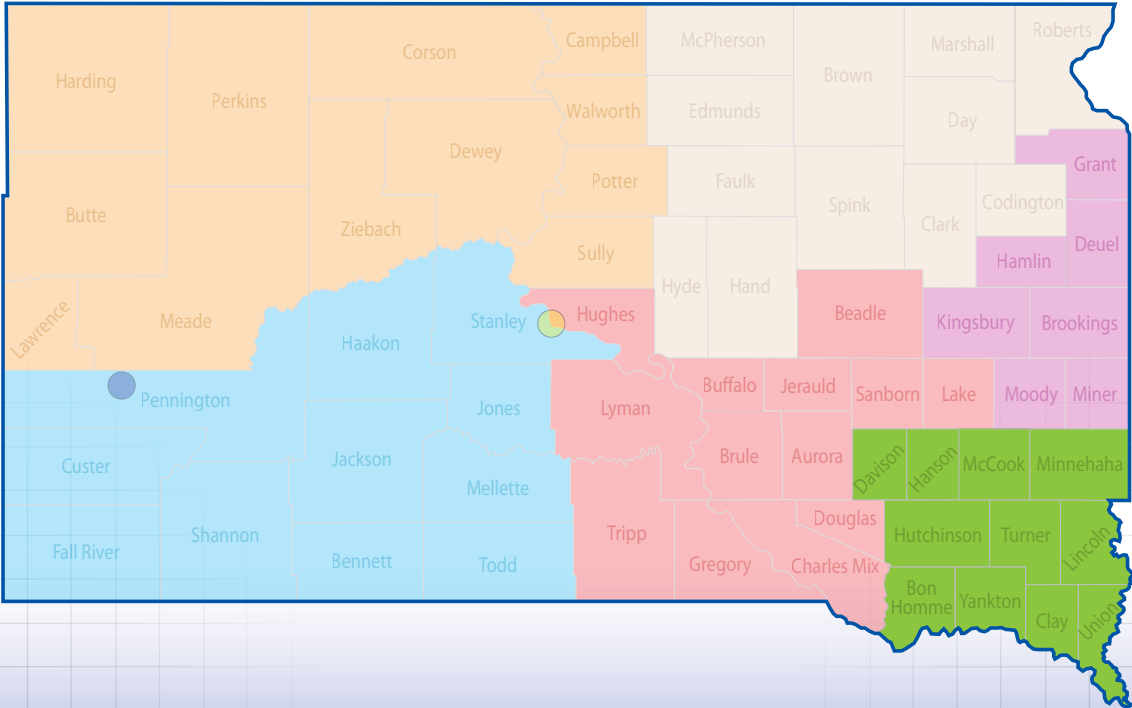

SOUTH DAKOTA AIR NATIONAL GUARD STRUCTURE

SOUTH DAKOTA GUARD TASK FORCES

The South Dakota National Guard is divided into different Task Forces to provide assistance to our local communities throughout the state in the event of an emergency. Separated by eight geographic locations, units are assigned to each Task Force providing personnel and equipment for response to severe weather, fires, natural disasters, search-and-rescue operations, civil disturbances or homeland defense.

- SOUTH DAKOTA NATIONAL GUARD TASK FORCES

| Task Force 152nd | Task Force 196th & 114th |

FORCE STRUCTURE TRANSFORMATION

CHANGING FOR THE FUTURE

The South Dakota Air National Guard is transforming itself for the future. One of the major changes to come for the Air Guard will be the fielding of a new aircraft to replace the aging F-16 fighter aircraft. This transition to a new airframe will keep the Air Guard in the forefront of readiness and mission capabilities.

The South Dakota Air National Guard is no longer a strategic reserve to the active component, but an operational force directly integrated into active component deployments and missions.

In addition to its active component obligation, the South Dakota Air National Guard gives the state an enhanced in-state mission capability and response; providing engineering, security, medical, communications assets and more.

To be flexible enough to complete both missions, the Air National Guard of today contains essential Core Joint Capabilities. Each state has been organized in this manner. Units have now transformed in order to meet the new National Guard structure.

By transforming to a more modular force today, the Guard stays relevant to meet the needs of the Air Force for future operations and to provide support for state and national emergencies and homeland defense.

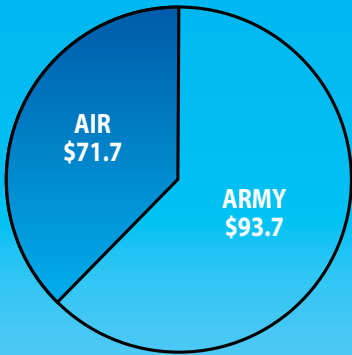

CORE JOINT CAPABILITIES

- 1. Joint Force Headquarters
  - Command, Control, Communications and Computers
  - Intelligence, Surveillance and Reconnaissance
  - Reception, Staging and Onward Integration
- 2. Civil Support Teams
- 3. Aircraft Maintenance
- 4. Fighter Operations
- 5. Civil Engineering
- 6. Medical
- 7. Communications
- 8. Transportation
- 9. Security
- 10. Services
- 11. Logistics

AIR NATIONAL GUARD HISTORY

HISTORY OF THE AIR NATIONAL GUARD

The Air National Guard as we know it today is a separate reserve component of the United States Air Force. The official birth date of the Air National Guard is Sept. 18, 1947; the same day the Air Force became a separate service. The Air National Guard as we know it today was a product of postwar planning during World War II. The men and women of the Air National Guard are truly the epitome of our nation's first militia dating as far back as the Massachusetts Bay Colony in 1636. In those days, every able-bodied man had a weapon and could be called upon to lay aside the plow in defense of the state. Today's National Guard members are your doctors, lawyers, police officers, cooks, teachers, factory workers, and white and blue-collar workers. They are your civilians in peace; Airmen in war.

The Air National Guard has a unique dual-mission that consists of both federal and state roles. This dual-mission means not only being part of the nation's entire military force, but also being responsible to their respective states during times of state or community emergencies. In peacetime, the governor of each state or territory commands the Air National Guard. The Air Guard has been there to help its communities during such emergencies as; hurricanes, floods, tornadoes, earthquakes and forest fires. During National crises, the Air National Guard is activated by the president of the United States. We have defended our national interests during World War II, Korean and Vietnam Wars, Desert Storm/ Desert Shield, and Operations Iraqi Freedom, Enduring Freedom and Noble Eagle.

Throughout history, the Air National Guard has been responsible for the defense of the United States. General George Washington commanded the first National Guard unit against the invasion of British forces. National Guard troops participated in the War Between the States. Whether guarding its borders to the north and south or patrolling the waters of our coastline, the National Guard ensures the safety of all Americans.

Since World War II, the Air National Guard has been involved in restoring and maintaining peace throughout the world. The Air National Guard's pilots made significant contributions to the United States involvement in both Vietnam and the Korean War. The Berlin Crisis highlighted the Air National Guard's involvement in humanitarian missions around the world. Between 1983 and 1990, Air National Guard members played a key role in helping to restore democracy around the world; with the invasions of Grenada and Panama. On Aug. 2,

1990, Operation Desert Storm and Desert Shield brought Air National Guard members to the ready once again by providing air support in the “no fly” zone and broadcasting surrender appeal messages and instructions to the Iraqi Soldiers.

Air National Guard members take pride in being active role models for their communities. During times of celebration or trouble, the Air National Guard provides resources and support needed to get the job done. We have helped with such projects as Habitat for Humanity and Red Cross blood drives. We have supported our communities with time, sweat and supplies during hurricanes, tornadoes and earthquakes. As an institution, the Air National Guard is committed to the vision of being a mirror of the people and values of America. We share in the success of our nation, and we are ready, willing and able to defend America's freedom.

HISTORY OF THE SOUTH DAKOTA AIR NATIONAL GUARD

The South Dakota Air National Guard was founded by Medal of Honor recipient and former Governor Joe Foss on Sept. 20, 1946, with the federal recognition of the 175th Fighter Squadron in Sioux Falls. The 175th Fighter Squadron was assigned to the 132nd Fighter

Group in Des Moines, Iowa. The unit was equipped with the P-51 Mustang, plus several types of support aircraft.

The 175th Fighter Squadron was reassigned to the 133rd Fighter Interceptor Wing, Minnesota Air National Guard, along with units from Fargo, N.D., and Duluth and Minneapolis, Minn., in November 1950. The unit was called to active duty on March 1, 1951, and moved to Ellsworth Air Force Base in Rapid City to provide support for the B-36 bombers stationed there. The unit was returned to state control on Dec. 1, 1952.

The squadron began transitioning to jet fighters in July 1954 in the F-94A/B. On April 16, 1956, the 175th Fighter Interceptor Squadron became part of the newly constituted 114th Fighter Interceptor Group, headquartered in Sioux Falls. The squadron flew the F-94C until 1958, when it transitioned to the F-89J. In 1960, the 114th Fighter Group was again assigned to the 132nd Fighter Wing and equipped with the F-102. During the period of 1960 to 1970, the 114th Fighter Group distinguished itself with outstanding performance of the air defense mission. Aircraft were maintained on five-minute alert throughout this period.

The 114th Fighter Group was re-designated as a tactical fighter group in May 1970 and the F-102s were replaced with F-100Ds. The unit transitioned to the A-7D in 1977. During the A-7 era, the 114th Tactical Fighter Group was awarded four Air Force Outstanding Unit Awards and the Armed Forces Expeditionary Streamer for combat duty as a part of Operation Just Cause in Panama during 1989-1990.

The 114th Tactical Fighter Group received the first of its F-16C/D Fighters in August 1991 with the official conversion from the A-7 to F-16 occurring on Jan. 1, 1992. The unit was re-designated as the 114th Fighter Group and became a part of the newly formed Air Combat Command on June 1, 1992.

The 114th Fighter Group made history as one of the first operational units in the Air National Guard to receive the F-16C Fighting Falcon.

The unit was one of the first four Air National Guard units tasked to deploy in support of Operation Provide Comfort II based out of Incirlik Air Base, Turkey. Combat patrol missions

were flown over the northern “No Fly” zone of Iraq from December 1993 to January 1994.

On Oct. 1, 1995, the unit was re-designated the 114th Fighter Wing under the Air Combat Command.

The unit subsequently supported Operation Northern Watch, based out of Turkey in 1995 and 2002 and Operation South Watch based out of Kuwait in 1998 and Saudi Arabia in 2001. In 2006, the 114th Fighter Wing flew combat missions as part of Operation Iraqi Freedom. In addition to deployments throughout the continental United States the Wing also has deployed its F-16's as part of training missions in Belgium, Singapore, Curacao, Israel, Canada, Alaska and Hawaii.

A new chapter was opened in the history of the Air National Guard with the terrorist attacks on America on September 11, 2001. In addition to the unit's ongoing tasking as part of the Air Expeditionary Force (AEF), unit members were also activated to support Operation Noble Eagle and currently have full responsibility for the Air Sovereignty Alert mission based at Langley Air Force Base, Virginia. More than two-thirds of the unit's 1,000 members have actively supported the global war on terror either at home or abroad.

CHANGING OF THE GUARD

Since the Sept. 11 attacks on America, the South Dakota National Guard has mobilized more than 3,100 Soldiers and 700 Airmen in support of the Global War on Terrorism. Each of our 30 National Guard communities has experienced a unit mobilization and understands the sacrifice made by our Soldiers and Airmen, their families and their employers.

The South Dakota National Guard continues to support Operations Enduring Freedom, Iraqi Freedom and Noble Eagle overseas and within U.S. borders. At home in South Dakota with more than 4,000 Guard members serving in a non-active duty status, the National Guard continues to respond to state emergencies, support disaster relief efforts and provide for homeland defense.

This unyielding commitment to protect and defend the homeland here and abroad brings to light the great sacrifices made by the service men and women of our organization. Their service and dedication to duty has demonstrated that the National Guard is no longer just a strategic reserve for the active component, but a ready, operational force directly integrated into active component deployments and missions.

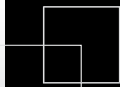

With a war being fought on two fronts and our nation facing an ever-changing geo-political landscape with diplomatic uncertainties, we must be prepared to face any and all threats to our liberty, this great nation, and the pursuit of freedom for all people.

To ensure our communities, state and nation are ready to meet the challenges that lie ahead, the National Guard has undergone a force structure transformation like never before in its history.

With major changes to its organization, the South Dakota National Guard has transformed to provide a greater response capability in support of state and federal missions. This book outlines those changes and highlights some of the National Guard's capabilities and contributions to our state and nation. It takes a look at where the Guard was in the past, and where it's going in the future. This is your South Dakota National Guard.
